## To Name New Captian Here For Loch Garve

Cables were this morning received from the owners of the British ship Loch Garve, Liverpool, authorizing Lloyd's local agency, Theo. Davies & Co., to appoint a master for the vessel to succeed Captain Ritchie removed by a special court of inquiry here on account of drunkenness.

Cables were received at the British consulate and at the office of the agents.

First Officer Clements is authorized to hold temporary command, but he will not take the vessel out as master.

Captain Ritchie has protested against the action of the special board of inquiry in removing him. He states that he is still in command.

## A Life Preserver

Usually this sea of life is not so rough but what we can swim along all right. Sometimes, however, the wind blows hard against us and big waves come up. Then we have to use every bit of reserve strength to make headway or even to just barely hold our own. Many times we go back, once and awhile we go down. These big waves are "accidents," and a policy in the STANDARD LIFE AND ACCIDENT CO., is surely a life preserver.

## AMERICAN WOMAN IMPRESSES GERMAN EMPEROR

MRS. HARRY S. LEHR.

Whatever may be the outcome of the conflicting reports from Berlin regarding the attitude of the Kaiser and his court toward Harry Lehr, pet of New York's "Four Hundred" and butt of many jokers, there can be no two opinions regarding the pleasant impression made upon His German Majesty by Mr. Lehr's handsome wife. At her recent presentation to him at the opera the war lord was most gracious in his treatment and paid her many compliments while she was in the royal box. She conversed with the Kaiser in German, which she speaks fluently, and which made upon him a most pleasant impression. Mrs. Lehr, Mrs. John R. Drexel and other well known American women for outshone their German rivals at the royal entertainments which they have attended. The favorable impression made by Mrs. Lehr may, in a measure mollify the Kaiser's anger with her husband, which is said to be resultant from a report that Mr. Lehr was responsible for the use of French, instead of German, champagne at the baptism of the yacht Meteor when that vessel was launched in this country. The report added that Mr. Lehr was agent for the wine used.

## DOPED CANDY FIEND IS IN JAIL

block, Kakaako.

He claimed to be a policeman and taunted the girl about an alleged lover, trying to frighten her with a bluff about the grand jury having trouble in store for her sweetheart. He teased and tormented, threatened to arrest and finally struck the lady. A member of Company E. N. G. H. was present at the time and interfered when the blow was given. The police were summoned and Reble was carted to the dispensary of justice.

Reble is notorious in Kakaako and is noted for peculiar methods. He is said to doctor candy with certain preparations supposed to possess the power of silencing conscientious scruples and exciting emotions. This candy he passes around among the women of his acquaintance.

## SENATE ASKS THE BOARD OF HEALTH ABOUT IT

The Senate wants to know what the Board of Health is going to do about the Legislature's concurrent resolution in the Wallace matter.

In the Senate this morning, Senator Makekau introduced the following resolution:

Whereas both Houses of the Legislature have passed unanimously the Wallace Concurrent Resolution No. 9 of the House.

Whereas said resolution was sent to the Board of Health for many days past; and

Whereas no answer has been sent to either House on the same.

Be It Resolved by the Senate that the President of the Board of Health is hereby humbly requested to inform the Senate the decision of the Board in regard to said Wallace Concurrent Resolution within three days from the delivery of a copy of this Resolution to the President of the Board of Health.

And Be It Further Resolved that the Clerk of the Senate is hereby ordered and directed to make a copy of this Resolution and send it to the President of the Board of Health.

Smith opposed the adoption of the resolution because the former resolution had not required an answer. Knudsen moved to refer the matter to the Health committee. This motion was lost and Makekau's motion to adopt the resolution was then passed.

## WOULD OPEN LANDS AND SEEK IMMIGRANTS

SENATE COMMITTEE ON PUBLIC LANDS RECOMMENDS AN ACTIVE POLICY OF LAND OPENING AND THE APPOINTMENT OF A COMMISSIONER OF IMMIGRATION TO SEEK IMMIGRANTS UNDER THE NEW IMMIGRATION LAW PASSED BY CONGRESS.

Upon the reassembling of the Senate, Hayseiden made the following report, which was laid on the table to be considered with the measure in question:

"The Committee on Public Lands, to which was referred a resolution passed on April 6, by the Territorial Board of Immigration, begs to report as follows:

"Advices received here by cable show that conditions today are not the same in regard to immigration, as they were when the resolution was passed. It now appears that immigrants from Europe may be secured after June 30 next and we believe that a letter from the President of the United States, addressed to the Governor of this Territory, has been sent conveying this information.

"Further we learn from the public press that some of those Portuguese who went to California, are already returning to Hawaii.

"It hardly seems, in the opinion of this committee, within the province of the Legislature to urge upon the plan of the adoption of a policy that will enable them to retain white laborers. This should be self-evident to those interested.

"On the other hand your Committee feels that the Legislature should express a decided opinion upon the ad-

visability of a policy, by the Territorial government, that will promptly open up and develop all available public agricultural and pastoral lands for permanent occupation upon easy and attractive terms to settlers.

"With this end in view your Committee recommends:

"1. A liberal appropriation for the Territorial Survey Department;

"2. Provision for the appointment by the Governor with the approval of the Senate, of a permanent immigration official to be known as 'Commissioner of Immigration,' who shall act in conjunction with the Board of Immigration subject to approval by the Executive on the lines set forth in Section 40 of the Act of Congress entitled 'An Act to regulate the immigration of aliens into the United States,' approved February 20, 1907.

This embraces the policy of the Federal administration in regard to immigration by States and Territories and, in order to make it effective, an expense fund must be provided for the Immigration Commissioner of Hawaii."

Dowsett, for the Ways and Means Committee, reported in favor of the passage of House Bill 194, providing for the creation of a sinking fund. The report was tabled to be considered with the bill.

## Municipal Bill Wins Over Pocket Veto By A Nose

THE SENATE CONCURS IN HOUSE AMENDMENTS AND HUSTLES THE BILL TO THE GOVERNOR.

Senate Bill 22, the municipal bill, was returned to the Senate from the House with amendments adopted yesterday.

Lane moved that the Senate concur. Makekau seconded it. Smith moved to defer the bill until tomorrow. Lane said that he desired to get the bill to the Governor today, as tomorrow would start the pigeon-hole period, and he did not care to risk the bill. Smith withdrew his motion. He said that the bill had been safeguarded in certain respects of salary. He said that a mistaken impression existed about the bill. It was felt by some that the new system would make a complicated expensive government, but it would do nothing of the sort. He felt that the creation of the office of mayor with the check on the supervisors, would be productive of excellent results. The mayor was also restrained, so that he would not become a czar, as many had predicted. The speaker predicted that the new system of municipal government would be followed with beneficial results, as it will better suit the needs of Honolulu than the present system of County government.

The motion to concur in the amendments was adopted by the following vote:

Ayes—Brown, Chillingworth, Coelho, Hayseiden, Hewitt, Kalama, Knudsen, Lane, McCarthy, Makekau, Smith, Woods, Noes—Dowsett, Gandall and Bishop.

Senator Lane then moved that the Senate take a recess to enable the clerk to send the bill to the governor. This motion prevailed.

It was a case of winning by a nose, for this is the last day before the legislature passes into the dreaded period of the pocket veto. It is generally believed that the Governor will veto the measure. But as his veto will have to be returned by the last day of the session, the idea is now that it will be passed over his anticipated veto.

## SETTLE WALLACH TRIP TODAY

The Board of Health will hold a meeting at 4 o'clock this afternoon when a final decision relative to the Wallach matter will be probably reached. It is understood that the special committee has decided against allowing Wallach to visit the leper settlement or the Kalahele receiving station to try his alleged "cures" on the lepers.

It is thought likely that such action will cause a big roar to be raised in the legislature, especially the House.
